Cedar Original Tile

Sustainably sourced, Australian made innovations

Timber is a sustainable, renewable, carbon-positive resource that can reduce the carbon footprint of your project. Designing with timber enhances the sustainability of your space by capitalising on natural materials that can be re-purposed in the future.

At Modinex, we pride ourselves on being environmentally responsible. Our local base gives us the advantage of collaborating closely with architects and designers. By understanding your needs, we can create sustainable design solutions that are compliant, fit-for-purpose and brimming with natural beauty.

Our manufacturing plants utilise natural timber plantations that are PEFC certified, ensuring our design collections that are sourced from sustainably managed forests. We also use environmentally sustainable, ultra-low VOC coatings to protect our environment for the generations to come.

Make a bold and dramatic statement

This unique and resourceful product creates a distinctive finish that is truly striking. Made entirely from PEFC Certified Western Red Cedar off cuts, in irregular sizes and composed into random patterns, Modinex Cedar Original Tile brings artistic style, credible sustainability and multidimensional appeal to any space. The result is innovative, contemporary and highly textured, provoking a great deal of admiration. Sold under licence by Stack Panel Australia.

Features and Benefits

Sustainable timber — Sustainably-harvested timber PEFC™ Certified

Insulation — Provides improved insulation and reduced noise penetration

Suitable for large spaces — Wide cover area reduces the lineal meters required making it ideal

Easy to install — Premium pre-finished internal panelling system

Greentag Certified

Timber Coatings

Modinex offers a range of standard and custom coating to meet our client's design requirements, whilst offering the best protection to our beautiful timber collections. All our coatings at Modinex are ultra-low VOC or VOC-free coatings. Please note some profiles are not available in all timber species.

Penetrating Oil Coatings

Penetrating oils can be used for both internal and external conditions. These oils penetrate the cellular structure of the timber giving it greater protection against UV and weathering. If you are looking for a natural Patina finish, we can apply our Mist or Patina coatings to achieve a natural from installation. Penetrating oil achieve a natural matt finish.
