Pin Stripe Panneling

Classic, uninterrupted lines

Modinex's Pin Stripe profile, in Western Red Cedar, has a timeless and elegant appeal. The perfectly straight shadows and lines of the pinstriped panels lend a structured architecture; feel to interiors that makes it perfect for corporate spaces.

With no channels between the profiles, the continuous pattern accentuates the natural cedar highlights.

Stunning, bold and unique

The Pin Stripe profile comes in two striking options that are exclusive to Modinex.

Ideal for large coverage areas, the continuous Pin Stripe grooves give a spectacular dynamic to interiors. Available in either white or black, both colour options celebrate the natural Western Red Cedar highlights.

Features and Benefits

Sustainable timber — Sustainably-harvested timber PEFC™ Certified

Insulation — Provides improved insulation and reduced noise penetration

Suitable for large spaces — Wide cover area reduces the lineal meters required making it ideal

Easy to install — Premium pre-finished internal panelling system

How to specify

Download REVIT files, installation instructions, product care and technical information at modinex.com.au

Choose your shape

PROFILE CODE	DIMENSION
PR-PS16-WRC-133X12	133mmW x 12mmD

Profiles

Pinstripe 133mm wide
12mm thickness available

Choose your finish

See Modinex website for full range of colour and coating options.

Timber Species

All our ranges of timber species are available in set length and random length. Please contact our projects team for more information.

— SOFTWOOD

Western Red Cedar, Alaskan Cedar & Hemlock are the only suitable species for 9mm thick profiles. All Softwood species can be used for 12mm thickness or greater. For external applications, please use 18mm thick profiles or greater.

Western Red Cedar

Plantation
100% PEFC Certified
Greentag Certified

Western Red Cedar - Tight Knot

Plantation
100% PEFC Certified

Hemlock

Plantation
100% PEFC Certified
Suitable for indoor and
out-of weather use only

Hemlock - Thermally Modified

Plantation
100% PEFC Certified

Alaskan Cedar

Plantation
100% PEFC Certified

Accoya

Plantation
100% PEFC Certified

— HARDWOOD

Hardwood species can be used for 15mm thickness or greater for out of weather applications and 18mm thickness or greater for external use.

American Oak

PEFC Certification is available

Blackbutt

FSC Certification is available

Timber Coatings

Modinex offers a range of standard and custom coating to meet our client's design requirements, whilst offering the best protection to our beautiful timber collections. All our coatings at Modinex are ultra-low VOC or VOC-free coatings. Please note some profiles are not available in all timber species.

Penetrating Oil Coatings

Penetrating oils can be used for both internal and external conditions. These oils penetrate the cellular structure of the timber giving it greater protection against UV and weathering. If you are looking for a natural Patina finish, we can apply our Mist or Patina coatings to achieve a natural from installation. Penetrating oil achieve a natural matt finish.

Suitable for external conditions

UV Catalysed Coatings

UV catalysed coatings offer excellent surface projection to timber whilst being free of solvents and VOC free. UV coatings are available in matt or satin finish in a range of stain colours. UV coatings are one of the most sustainable and environmentally friendly coatings.

Suitable for out-of-weather use only

Acid Catalysed Coatings

Acid catalysed coatings are commonly used for clear finishes in a matt or satin finish. These coatings are extremely hard-wearing.

Suitable for out-of-weather use only

Custom Coatings

If one of our standard stain colours does not meet your design requirements, we can apply a custom coating in which we can colour match any colour.

Suitable for out-of-weather use only

For further information on our range of coatings and colour please contact our projects team hello@modinex.com.au . A range of our finishes are a combination of both Acid Catalysed and UV Catalysed coating technology.

Create stunning wow factor
with flexibility of style, texture,
colour, shape and species.

Talk with our design team today about how to maximise the grandeur of your space. Our extensive product range puts a wealth of inspiration at your fingertips. We can even collaborate with you to innovate custom solutions, specifically designed to bring your vision to life and elevate your space with exclusive designer appeal.
