Bespoke timber —  
Architectural signatures

# Flooring Collections

## The luxurious signature in premium architectural spaces

Modinex's passion is to turn your creative vision into reality. Through collaboration with architects & designers, we thrive by creating spaces that not only enrich your lives but positively impact the world around us.

Our range of bespoke timbers and architectural timbers is the provision required for all you need to enhance & elevate your space – let us be your design innovation partners.

French Oak - Burnt Umber

## Our approach

When you specify Modinex, not only do you unlock a stunning array of innovative architectural building products, but you also experience the knowledge of 40+ years of design intelligence and practical ability Modinex has to offer. We inspire unique design opportunities, innovate the products and systems that make them possible and offer after-sales support to bring everything to life with beauty, strength, and compliance.

## Modinex environmental statement

At Modinex, we prioritize environmental responsibility as a guiding principle in our processes. We are resolutely committed to minimising our impact on the environment by actively promoting environmental stewardship, waste, and emission reduction, and consistently exceeding environmental laws & regulations. Through the implementation of the Modinex Long Plank process, we are determined to efficiently utilize our shorter-length timber in order to drastically reduce waste in both the manufacturing process and on the building site.

Our 'Zero Waste' initiative in timber manufacturing processes is a demonstration of our unwavering dedication to procuring wood from sustainably managed forests with PEFC Chain of Custody.

Modinex is unyielding in our commitment to continually improve and uphold our environmental performance intentions, while fervently advocating sustainability.
